PPE 3884: Topics in PPE

"Fairness"

There are many cases in life in which people need or want a good, but there is not enough of it to go around, for example COVID vaccines, concert tickets, spots at a selective university. This course explores a variety of approaches to allocating such goods, ranging from nepotism, to markets, merit, lotteries, or queues, and aims to address how such allocation problems should be addressed in general.

Tues/Thurs. 12:30-1:45pm. NCB 130B. Associate Professor Gil Hersch.
